    3PC PICK PACK

UKE Series Picks are manufactured from our exclusive Flextex composite material, offering players a more durable and flexible option to the "old school" felt picks.

Bass Series Picks are designed to achieve a more pure attack for bass players who use a pick, eliminating the "percussive clicking sound" produced by standard plastic picks. Manufactured in Standard 351 Shape, the 3.0mm version is made from our exclusive Toneflex material while the 3.8mm version is made from our Flextex material.

THALIA PICKS

Introducing the brand new Thalia wood picks. Meticulously crafted using Santos Rosewood, these picks are created by slicing micro-thin layers of wood and bonding them together with the woodgrain arranged in a north, south, east, west pattern. The result? A remarkable wood pick that combines flexibility and durability, providing a warm tone that only improves with each use.
