ELECTRIC

HECC15-BLK

Heller Electric | Coil-Connect Series Instrument Cables

Iconic vintage style meets modern reliability. The Coil-Connect Series captures the classic stage presence of vintage coiled cables while delivering the uncompromising performance of modern professional-grade construction. Expertly engineered for musicians who demand classic style, dependably clear tone, and rugged performance.

Key Features

Iconic Vintage Style: Make a statement with vibrant coiled cables that extend to 15 feet and retract neatly to keep your stage or studio organized and tangle-free.

Pure Signal Transmission: Robust 20AWG Oxygen-Free Copper conductor (99.9% pure) ensures maximum signal clarity and preserves your instrument's full dynamic range.

Studio-Quiet Performance: High-density pure copper braided shield provides exceptional rejection of RFI and EMI interference for professional-grade, dependably quiet operation.

Road-Ready Construction: Each hand-soldered connection is protected by double-layer heat-shrink tubing for superior strain relief, with kink-resistant PVC jacket engineered for years of professional use.

Pro-Grade Connection Guaranteed: Like all Heller Electric cables, the Coil-Connect Series is backed by a Limited Lifetime Warranty against manufacturing defects.

Available Configurations

Cable Length: 15 ft coiled (extends and retracts)

Plug Options:

One straight and one right-angle (90-degree) plug.

Available Colors: Black, Blue, White, Pink, Red, Yellow (Pro Series)

Heller Electric | Braid-Matrix Series Instrument Cables

The Braid-Matrix series represents the definitive link for artists who leave nothing to chance. These are professional-grade cables where every component is specified to deliver your tone with exceptional purity and reliability, night after night. These cables feature stunning, tangle-resistant woven jackets that provide a timeless vintage aesthetic.

Key Features

Superior Tonal Purity: Heavy-gauge 20AWG conductor made from 99.9% pure Oxygen-Free Copper (OFC) delivers exceptional clarity, power, and full-frequency detail.

Maximum Noise Rejection: High-density, 99% coverage braided shield provides maximum rejection of EMI/RFI hum and microphonic handling noise for studio-quiet performance.

Vintage Woven Construction: Durable, tangle-resistant woven cloth jacket offers superior protection with a timeless, premium aesthetic that stands out on any stage.

Professional Hand-Soldered Connection: Durable zinc alloy plugs are nickel-plated for corrosion resistance and meticulously hand-soldered for superior, long-lasting reliability.

Lifetime Guarantee: Like all Heller Electric cables, the Braid-Matrix Series is backed by a Limited Lifetime Warranty against manufacturing defects.

Available Configurations

Cable Lengths: 10 ft, 15 ft, 20 ft

Plug Options:

Straight to Straight (1/4" TS)

Straight to Right-Angle (1/4" TS with gold-plated angle plug)

Woven Jacket Colors: Orange & White, White & Blue, Gold & Tangerine, Gold & Black, Silver & Black, Black & Silver, Red & Silver, Black & Bright Blue, Camouflage

Heller Electric | High-Standard Series Instrument Cables

The High-Standard Series is engineered to be the most reliable and sonically transparent link for your entire rig, whether on stage or in the studio. Built with components that far exceed the norm and meticulous assembly, these cables deliver your tone with clarity and balance. With rugged, road-ready construction and hand-soldered connections, the High-Standard Series provides performance that you can count on, gig after gig.

Key Features

Transparent Tone: 24AWG Oxygen-Free Copper (OFC) conductor provides a clean and transparent path for your instrument's natural tone.

Quiet Performance: Durable pure copper braided shield helps to reject RFI and EMI noise for a quieter signal path.

Road-Ready Durability: Flexible and kink-resistant PVC jacket is paired with a robust strain relief to protect the cable from the stresses of regular use.

Secure Connection: Durable zinc alloy 1/4-inch plugs are hand-soldered for a highly reliable, long-lasting connection.

Lifetime Peace of Mind: Every High-Standard Series cable is backed by Heller Electric's Limited Lifetime Warranty against manufacturing defects.

Available Configurations

Cable Lengths: 10 ft, 15 ft, 20 ft

Plug Options:

Straight to Straight (1/4" TS)

Straight to Right-Angle (1/4" TS)

Heller Electric | High-Standard Series Pedalboard Patch Cables

HEPC-2

Professional-grade patch cables designed for consistent, high-quality pedalboard connections. Each 6-inch cable features a 24AWG oxygen-free copper conductor and 95% braided shield to preserve your tone while rejecting noise throughout your signal chain. Low-profile, right-angle plugs with hand-soldered connections deliver reliable performance that withstands constant use and setup changes.

Key Features

Transparent Tone: 24AWG Oxygen-Free Copper (OFC) conductor provides a transparent path for your instrument's natural tone.

Hand-Soldered Reliability: Each low-profile, right-angle 1/4-inch plug is hand-soldered for a durable, long-lasting connection.

Lifetime Peace of Mind: Every High-Standard Series cable is backed by Heller Electric's Limited Lifetime Warranty against manufacturing defects.

Available Configurations

- 2-Pack (6-inch, black kink-resistant PVC jacket)
- Bulk Pack (50 pieces, 6-inch, woven cloth-covered, assorted colors)

HESC-01

HESC-02

Heller Electric | High-Standard Series Speaker Cables

Your power amplifier and speakers are only as strong as the cable that connects them. The Heller Electric High-Standard Speaker Cable is engineered to deliver your amplifier's power to your speakers with maximum efficiency and unwavering reliability, making it the ideal connection for both PA systems and guitar or bass cabinets. Built with heavy-duty, pure copper conductors, this cable is designed to preserve the true character and dynamic impact of your sound.

Key Features

Maximum Power Delivery: 16-gauge (AWG), 2-conductor design ensures efficient power transfer from your amplifier to passive PA speakers and instrument cabinets..

Road-Ready Durability: 95% braided copper shield and a flexible, kink-resistant PVC jacket provide exceptional durability and protection against stage use.

Ultra-Reliable Connectors: All-metal 1/4-inch TS plugs are hand-soldered and feature a double shrink tube strain relief for a rock-solid, road-worthy connection.

Road-Ready Construction: Each hand-soldered connection is protected by double-layer heat-shrink tubing for superior strain relief, with kink-resistant PVC jacket engineered for years of professional use.

Lifetime Warranty: Like all Heller Electric cables, the High-Standard Series is backed by a Limited Lifetime Warranty against manufacturing defects.

Available Configurations

20-foot length

50-foot length

Heller Electric | High-Standard Series Microphone Cables

The Heller Electric High-Standard Microphone Cable is engineered for clarity and reliability, providing a clean, quiet, and accurate link for all your critical audio applications. Whether you need a balanced connection for studio work or a rugged unbalanced cable for specific applications, every High-Standard microphone cable is built with pure copper conductors, dense shielding, and durable, hand-soldered connectors to ensure a flawless, long-lasting bond.

Key Features

Clean & Accurate Signal: Oxygen-Free Copper (OFC) conductors deliver a clean, accurate, and full-range audio signal.

Studio-Quiet Shielding: A dense 95% coverage braided shield of pure copper provides excellent rejection of RFI and EMI, reducing unwanted hum and interference.

Ultra-Reliable Connectors: All-metal connectors are hand-soldered and feature a double shrink tube strain relief for a rock-solid, road-worthy connection.

Lifetime Warranty: Like all Heller Electric cables, the High-Standard Series is backed by a Limited Lifetime Warranty against manufacturing defects.

■ We proudly introduce the new reissue of Ace Brand guitar straps. Originally made in the 1960's and 70's, and worn by your favorite iconic guitar players, these straps are back in production by D'Andrea. With the renewed love and demand shown over these recent years for the original vintage straps, it was a gimme to resurrect these classic models from the stow of your old tattered chipboard case.

HGB-E2

- A closer look at the Henry Heller HGB-E2 level 2 gig bag series.

Henry Heller

HGB Level 2 series gig bag range that the dealers have known to love in its 5th generation in 8 years. The deluxe mid-priced 2019 version of this bag model comes upgraded with:

- * new for 2019 combined 30mm of closed cell high density padding
- * new for 2019 thick black plush lining throughout the interior
- * sewn in string guards
- * a sewn in velcro neck stabilizer
- * deluxe large double zippers
- * 3" wide adjustable padded back pack straps
- * a soft hand padded carrying handle with leather binding
- * a front facing matching deluxe handle we like to call the subway handle for carrying the bag upright
- * two smart styled accessory pockets
- * handy bonus d-ring sewn to the upper back of the bag for hanging purposes.
