

thalia®

Patented + Award-Winning Design

The Thalia Capo is a complete rethinking of the capo as a piece of art. Our aesthetic goal was to create a truly beautiful capo that would match or compliment the users' instrument. Its reverse fulcrum point and quick release design allows for seamless one-handed key changes with fretting hand.

Intentional design, with the guitar player in mind resulted in three US patents for our capo as well as four prestigious design awards.

Every Exotic Series Capo includes:

- Universal Standard Tension OctaveTouch Fretpad (silicone) installed
- Universal High Tension OctaveTouch (silicone) Fretpad included in case
- Quickstart Guide
- Sticker

Thalia Pick Pucks are precision molded out of Polycarbonate and decorated with Exotic Shell and Wood Inlay along with UV Printing.

Thalia's proprietary GuitarSafe (add small trademark tm) Micro-Suction pads are modeled after a Gecko's foot, using suction instead of adhesive to safely adhere to guitars. The pad's surface contains thousands of microscopic air pockets that create partial residue free vacuum between the puck and guitar surfaces.

The Pick Puck holds 6 picks up to 2mm thick.

GUITAR PICK COLLECTION

Thalia offers a line of plastic guitar picks as well as an exotic wood pick. Our exotic wood series picks are crafted by slicing micro-thin layers of exotic wood and then bonding them back together in a north, south, east, west pattern to create a stronger, more durable pick. The result is a very thin, flexible and durable wood pick with a warm tone that sounds better with each use.

Our Thalia Logo Grip Pick is a 3-ply celluloid pick that features an engraving of the Thalia logo in the top layer. This engraved logo provides the ultimate gripping surface for its user.

Guitar Pick Packaging Details

The Exotic Wood Series picks are available in packs of 6. These come in multiple thicknesses and shapes.

The Thalia Logo Grip Pick is available in packs of 3. This pick is available in the 351 shape and 1.5 gauge only.

Interchangeable Fine Tuning Fretpad Kits

Our Thalia Exotic Series Capos are shipped with our Standard Tension Universal OctaveTouch Fretpad installed for 6-String Guitars and a High-Tension OctaveTouch Fretpad for use on 12-String Guitars included in the package. For players seeking a level of enhanced fine-tuning Thalia offers Interchangeable Fine Tuning Fretpad Kits to match the specific radius of almost every fretted instrument.

FretPad Materials:

- OctaveTouch Fretpads are made of a proprietary silicone blend that mimics the elasticity of the human finger
- Rubber pads are the same material used on capos offered by other manufacturers
- Teflon pads provide a slightly brighter tone and allow players to bend strings while the capo is employed - recommended for 6-String Guitars only (*not currently available through distribution*)
- All materials are available in Standard Tension for 6-String Guitars + High Tension for 12-String Guitars

Interchangeable Fine Tuning Fretpad Kits by Radius + Part Numbers:

- 0" Radius Kit: TH-FPFTK-00
- 7.25" Radius Kit: TH-FPFTK-07
- 9.5" Radius Kit: TH-FPFTK-09
- 10" Radius Kit: TH-FPFTK-10
- 12" Radius Kit: TH-FPFTK-12
- 15" Radius Kit: TH-FPFTK-15
- 16" Radius Kit: TH-FPFTK-16
